Our Commitment to Decarbonization

MK Industry Co., Ltd. is committed to supporting a sustainable future by actively promoting initiatives to reduce greenhouse gas emissions.

Our greenhouse gas emissions reduction target has been approved by the Science Based Targets initiative (SBTi), a globally recognized organization that promotes science-based climate action.

Using 2025 as our base year, we are committed to reducing our Scope 1 and Scope 2 greenhouse gas emissions by 42% by 2030.

We will continue to reduce our environmental impact through our construction activities by improving energy efficiency, reducing fuel consumption, and promoting the efficient use of electricity.

As a company supporting essential social infrastructure, MK Industry Co., Ltd. remains committed to safety, quality, environmental responsibility, and sustainable business practices for future generations.
